

## Tokenomics Expert Consultant

**Location:** 100% Remote - Full time position

**To apply** for this position please send your CV to [recruitment@singularitynet.io](mailto:recruitment@singularitynet.io) informing the job title in the email subject line.

As our Tokenomics Consultant you will make sure that our tokenomics model is economically viable supporting the broad and diverse project portfolio within SingularityNET.

### **What you should know about the SingularityNET organization:**

SingularityNET is the world's leading decentralised AI platform and organisation. The SingularityNET decentralized network, and the associated nonprofit SingularityNET Foundation, were founded in 2017 with an extraordinarily ambitious and important mission: To work toward beneficial Artificial General Intelligence (AGI) guided and controlled in a democratic and decentralized manner. Now in an exciting exponential growth phase, SingularityNet is launching a number of inspiring and ambitious spin-off projects planned as part of its Phase 2 whitepaper, including infrastructure, media and biomedical projects.

Global and decentralised, SingularityNET works with a team of c.a. 100 talented scientists, engineers and operational experts, working either remotely or in hubs of excellence worldwide. At SingularityNET we value collaborative and creative ways of working, within a culture of openness and transparency where every team member is empowered to make their finest contribution and thrive. We are committed to diversity and inclusion and all candidates are welcomed and encouraged to apply irrespective of race, gender, age, religious beliefs, LGBTQ+ affiliation or any other minority characteristic.

### **What we are looking for:**

We are seeking a highly skilled and experienced tokenomics expert/consultant. The successful candidate will be responsible for making sure that our tokenomics model is economically viable. This model is meant to build and support a network of token holders who will benefit from synergistic interactions with individuals, researchers, longevity experts, clinicians, our active AI development community, and other creators of AI or biomedically relevant tools.

You will be responsible, as a tokenomics expert, for analyzing and comprehending the economic dynamics of our token model, including the impact of various factors such as supply and demand, price fluctuations, and market trends. You will also be responsible for making recommendations for how to improve the model's stability and the value of our tokens, such as by using incentives, rewards, and other mechanisms.

You should have excellent communication skills and the ability to work effectively with a diverse range of stakeholders, in addition to technical expertise. You must also be able to work in a fast-paced, changing environment and be able to adapt to new situations.

**Your responsibilities will include:**

- Analyze and comprehend the economic dynamics of our token model, including supply and demand, price variations, and market trends.
- Develop and recommend ways to improve the overall stability of our tokenomics model.
- Develop and recommend ways to maximize the value of our tokens, including incentives, rewards, and other mechanisms as necessary.
- Effectively communicate with a variety of stakeholders, such as researchers, clinicians, and members of our AI development community.
- Work successfully in a dynamic, fast-paced setting and adapt to changing conditions.
- Additional tasks may be added as per company's needs.

**Requirements:**

To be successful in this role you will need:

- Demonstrated expertise in tokenomics, with a strong understanding of economic principles and their application to token models.
- Strong analytical skills, with the ability to interpret data and develop insights and recommendations.
- Excellent communication skills, with the ability to clearly explain complex concepts to a variety of audiences.
- Ability to work effectively in a fast-paced, dynamic environment and adapt to changing circumstances.
- A degree in a related field, such as economics, finance, or computer science, is highly preferred.
- High level of accuracy and excellent reporting and presentation skills
- Great communication skills
- Proficient in English, written and spoken
- Hands-on experience
- Flexibility in working hours, ability to work under pressure and adjust quickly to changing goals and timelines.
- Cryptocurrency, AI and Defi expert..

**What you will get in return:**

- Being part of one of the greatest AI and blockchain teams in the world that aims to create beneficial Artificial General Intelligence for the good of humanity
- Working on multiple projects that each have the potential to change the world in domains like health, finance, media, and computing
- A lot of freedom and responsibility in organizing your work hours and location
- Opportunities to advance your career in many potential directions
- Salary and benefits are in line with your experience and location you are based.
